ORDER APPROVING INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE

Issue Date: August 26, 2026

Effective Date: September 5, 2026

Procedural History

On May 19, 2026, Spire Missouri Inc. d/b/a Spire filed an application and petition with the Commission pursuant to Sections 393.1009, 393.1012, and 393.1015, RSMo, and Commission Rules 20 CSR 4240-2.060, 2.080, and 3.265, requesting that the Commission authorize changes to the Spire Missouri East (Spire East) and Spire Missouri West (Spire West) Infrastructure System Replacement Surcharge (ISRS). Spire asked for incremental annual ISRS revenues for Spire East of \$10,803,974, and for Spire West of \$11,356,877, for a total increase of \$22,160,851.¹

Spire also filed a tariff sheet with its application, which bears an effective date of June 18, 2026. The Commission suspended the tariff sheet until November 15, 2026. Finally, Spire requested waiver of the Commission's 60-day notice requirement² for good cause.

¹ The amounts requested by Spire in its application used pro forma costs for the months of May 2026 and June 2026 which were subsequently updated.

² Commission Rule 20 CSR 4240-4.017(1).

The Staff of the Commission (Staff) filed its recommendation on August 17, 2026. After reviewing the supporting work papers, work order authorizations, accounting entries for work orders, a sample of invoices supporting the work order authorizations and an ISRS revenue reconciliation provided by Spire, Staff recommended that Spire receive total incremental annual ISRS revenue increases of \$10,804,368 for Spire East, and \$11,357,295 for Spire West, for a total increase of \$22,161,663. If approved, this would result in total recommended ISRS revenue requirements of \$19,482,787 for Spire East and \$19,165,151 for Spire West, for a total Spire Missouri ISRS revenue requirement of \$38,647,938. Spire responded on August 21, 2026, stating it had no objection to Staff's proposed revenue requirements. No further responses were received.

Decision

The Commission finds that Spire has complied with the requirements of the applicable ISRS statutes to authorize Spire's use of an ISRS. The Commission concludes that Spire shall be permitted to change its ISRS to recover ISRS revenues for this case in the amount of \$10,804,368 for Spire East, and \$11,357,295 for Spire West, for a total increase of \$22,161,663.

Since the revenues and rates authorized in this order differ from those contained in the tariff sheet Spire submitted, the Commission will reject that tariff sheet. The Commission will allow Spire an opportunity to submit a new tariff sheet consistent with this order. The Commission finds it reasonable to make this order effective in less than 30 days.

Spire's application also asks the Commission to waive the 60-day notice requirement in 20 CSR 4240-4.017(1). Spire asserts there is good cause for granting such waiver because it has filed a verified declaration that it has had no communication with the Office of the Commission within the prior 150 days regarding any substantive issue likely to be in the case. Based upon Spire's verified declaration, the Commission finds good cause exists to waive the notice requirement, and a waiver of 20 CSR 4240-4.017(1) will be granted.

THE COMMISSION ORDERS THAT:

1. Spire is authorized to change its Infrastructure System Replacement Surcharge (ISRS) sufficient to recover additional ISRS revenues in the amount of \$10,804,368 for Spire East, and \$11,357,295 for Spire West, for a total increase of \$22,161,663.
2. The tariff sheet filed by Spire on May 19, 2026, and assigned Tracking No. JG-2026-0140, is rejected.
3. Spire is authorized to file new tariff sheets to recover the revenue authorized in this Order.
4. The 60-day notice requirement of Commission Rule 20 CSR 4240-4.017(1) is waived for this case.
5. This order shall become effective on September 5, 2026.
