Necessity Authorizing it to Construct)
Renewable Generation Facilities and)
Battery Energy Storage Systems)

NOTICE OF EXTRA RECORD COMMUNICATION

Issue Date: September 16, 2026

Throughout the course of this case, the members of the Commission have received multiple emails from interested citizens, generally expressing opposition to the pending application. The emails, and any accompanying attachments, have been placed in the Comments section of the official case file, where they may be reviewed by the parties to this case.

The emails appear to be extra record communications, as defined by Commission Rules 20 CSR 4240-4.015(7) and 4.030, regarding the currently pending case. This notice is given pursuant to Commission Rule 20 CSR 4240-4.030(2). Any party may investigate the extra record communications in said emails and proceed as they see fit.

Because these emails have been continually received by the members of the Commission during the course of the case, if further similar emails are received in the future, the Commission will not file additional notices pursuant to Commission Rule 20 CSR 4240-4.030(2). Instead, the parties are placed on notice that any future similar emails received by the Commission while the case is pending will be treated in the same fashion – by placing

the emails in the Comments section of the official case file. Therefore, the parties are advised that they should regularly review the Comments section of this case file.

BY THE COMMISSION

Nancy Dippell

Nancy Dippell
Secretary

Kenneth J. Seyer, Senior Regulatory
Law Judge, by delegation of authority
pursuant to Section 386.240, RSMo (2016).

Dated at Jefferson City, Missouri
on this 16th day of September, 2026.
