

case.² Consequently, the Company has designated certain information as "Highly Confidential" and seeks a protective order to treat it as such under 20 CSR 4240-2.135(4).

3. Under 20 CSR 4240-2.135(4), a motion for greater protection, like this one, must explain the following:

- A. What information must be protected,
- B. The harm to the disclosing entity or the public that might result from disclosure of the information ("Potential harm"), and
- C. How the information may be disclosed while protecting the interests of the disclosing entity and the public.

4. What information must be protected: Resource cost information for candidate resources in Chapters 6 (and Appendix A) and 9 of the IRP, in any related workpapers, and any such resource cost information that may later be sought via discovery.³ The information for which Highly Confidential treatment is sought cannot be found in any other public document.

5. Potential harm: Highly Confidential protection for these materials is needed for several reasons. First, the Company continues to engage in negotiations with developers for additional generation resources needed as described in the Company's IRP.⁴ The Company may, in the near-term or later, engage in such discussions for generation needed for other purposes. The Company and each developer as a routine course enter a Non-Disclosure Agreement to ensure that proprietary and competitively sensitive information is not disclosed. It would be harmful to the Company, and ultimately its customers, if resource cost information were known to other potential

² Employees of the Commission, the Office of the Public Counsel, and the Division of Energy are all covered by statutes protecting the confidentiality of information submitted to the Commission by utilities.

³ For purposes of this Motion, "resource cost information" includes cost estimates and curves used for different types of supply-side resources, and related information used to develop such estimate and curves such as requests for proposals (RFP) responses and information showing resource cost components like bids or pricing for equipment, materials, and labor.

⁴ Developers have been parties to prior Company triennial IRP dockets.

counterparties. It could also potentially be harmful to other Missouri electric utilities and their customers for the same reasons.

6. The Company also continues to engage in negotiations with other contractors related to potential generation projects. The Company and the suppliers may be subject to confidentiality obligations with respect to each other's information, particularly as to costs and pricing. It would be harmful to the Company and ultimately its customers if confidentiality concerns have a chilling effect on future negotiations with such parties.

7. The interests of the developers, equipment suppliers, and other suppliers whose pricing informed cost information in the IRP could also be harmed due to the highly sensitive and competitive nature of their costs and pricing. This is why the Supplier Terms contain confidentiality provisions and the Company's RFPs (as is typical of RFPs) contain the Company's agreement to maintain the confidentiality of the RFP responses.

8. 20 CSR 4240-2.135(4) is in keeping with Missouri Supreme Court Rule 56.01(c)(7), which provides that protective orders may be issued "... to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including ... that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way ..."

9. How the information may be disclosed while protecting the interests of the disclosing entity and the public: Granting this protective order will prevent access to competitively sensitive information that could work to the disadvantage of counterparties to other generation negotiations. The information will still be disclosed to attorneys of record for all parties to the case, to any state agency parties and their employees covered by statutory confidentiality requirements,

and to designated outside experts of any non-state agency party, allowing all parties to the IRP docket the ability to fully participate in the docket.

10. Based on the reasons given herein, the Commission has previously issued a protective order on the terms requested in several other dockets, as cited above.

11. Attached to this motion is the disclosure form the Commission directed to be used in the Company's last triennial IRP, as well as several other dockets. The Company requests that the Commission direct use of that same form (marked as Exhibit A hereto) in this docket for those persons who will be authorized to access "confidential" information. That form, however, needs to be modified for those persons who, under the terms of the protective order requested hereby, can access "Highly Confidential" information. Consequently, the Company requests that the Commission direct use of a modified form (marked as Exhibit B hereto) in this docket for those persons who will be authorized to access "Highly Confidential" information.

12. Under 20 CSR 4240-2.135(10), "confidential" information is to be denoted as follows: ****confidential information****. Because Ameren Missouri has submitted "confidential" information and will submit "Highly Confidential" information, Ameren Missouri will utilize three asterisks to denote "Highly Confidential" information, as follows: *****highly confidential information*****.

WHEREFORE, Ameren Missouri respectfully requests that the Commission issue a protective order:

- a. Designating as Highly Confidential resource cost information⁵ for candidate resources in Chapters 6 (and Appendix A) and 9 of the IRP, in any related

⁵ As earlier defined.

workpapers, and any such resource cost information that may later be sought via discovery;

- b. Directing that any resource cost information in Chapters 6 (and Appendix A) and 9 should not be shared with any employees of a non-state party, or if it has been shared, that such employees should promptly return all such information to the party's attorney of record; and
- c. Directing the use of the Non-Disclosure Agreement forms marked as Exhibits A and B hereto.

Respectfully submitted,
