VIA EFIS

Nancy Dippell
Secretary
Missouri Public Service Commission
Governor Office Building
200 Madison Street
Jefferson City, MO 65102

Dear Secretary Dippell:

Enclosed herewith for filing with the Missouri Public Service Commission ("Commission") are the following revised tariff sheets issued by Summit Natural Gas of Missouri, Inc. ("SNGMO" or the "Company") for its three PGA divisions of Gallatin, Warsaw and Lake of the Ozarks, and the Rogersville and Branson service areas:

Filed	**Canceling**
P.S.C. MO No. 3, 14th Revised Sheet No. 56	P.S.C. MO No. 3, 13th Revised Sheet No. 56
P.S.C. MO No. 3, 14th Revised Sheet No. 57	P.S.C. MO No. 3, 13th Revised Sheet No. 57
P.S.C. MO No. 3, 14th Revised Sheet No. 58	P.S.C. MO No. 3, 13th Revised Sheet No. 58

The accompanying revised tariff sheets have an issue date of October 29, 2026, and an effective date of November 13, 2026.

These revised tariff sheets reflect the Purchased Gas Adjustment ("PGA") of the Company as set forth in the Company's tariffs. These revisions include adjustments to the Regular Purchased Gas Adjustment ("RPGA") and Actual Cost Adjustment ("ACA") factors.

The changes in the PGA factors applicable to the Company's Gallatin Division will decrease the firm sales customers' total PGA rate from $0.5059/Ccf to $0.4745/Ccf. The proposed decrease will cause an average winter residential gas bill to decrease by approximately $3.67 per month. This represents a 2.50% decrease for the average residential customer's monthly bill during the heating season.

The changes in the PGA factors applicable to the Company's Warsaw and Lake of the Ozarks Divisions will decrease the firm sales customers' total PGA rate from $1.0125/Ccf to $0.8633/Ccf. Because the two divisions share the same PGA rate and the same average winter usage, the proposed decrease will reduce the average winter residential gas bill to decrease by approximately $8.12 per month. This represents a 6.16% decrease for the average residential Warsaw Division customer's monthly bill, and 6.67% decrease for the average residential Lake of the Ozarks Division customer's monthly bill, during the heating season.

The changes in the PGA factors applicable to the Company's Rogersville and Branson Divisions will decrease the firm sales customers' total PGA rate from $1.0737/Ccf to $0.9272/Ccf. Because the two divisions share the same PGA rate and the same average winter usage, the proposed decrease will reduce the

average winter residential gas bill to decrease by approximately $12.66 per month. This represents a 7.62% decrease for the average residential Rogersville Division customer's monthly bill, and a 6.63% decrease for the average residential Branson Division customer's monthly bill, during the heating season.

The Company is providing workpapers supporting this filing with a copy of this filing being provided to the Commission Staff. The workpapers have been designated "Confidential" pursuant to 20 CSR 4240-2.135(2)(A)4 since they contain market specific information directly relating to the natural gas markets where SNGMO must compete for its gas supply.

Please bring this filing to the attention of the appropriate Commission personnel. Should you have any questions pertaining to the Company's revised PGA tariffs, please feel free to contact me.

Sincerely,

/s/ Goldie Bockstruck
