BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the Matter of Evergy Missouri West, Inc. d/b/a Evergy Missouri West's Request for Authority to Implement a General Rate Increase for Electric Service	))))	File No. ER-2027-0077

APPLICATION TO INTERVENE OF THE FEDERAL EXECUTIVE AGENCIES

COMES NOW, the Federal Executive Agencies (FEA), acting by and through the U.S. Department of Energy (DOE), which files this application to intervene pursuant to 20 CSR 4240-2.075 in the Evergy Missouri West, Inc. (Evergy) rate case captioned above (the Rate Case), and states in support of this Motion and Application as follows:

Application to Intervene

1. DOE is authorized to represent the FEA in rate proceedings such as the Evergy rate case before the Missouri Public Service Commission (Commission).

2. DOE's National Nuclear Security Agency Kansas City National Security Campus (KCNSC) receives electric service from Evergy. In addition, Whiteman Air Force Base (Whiteman AFB) receives electric service from Evergy. These installations are significant users of electricity in performance of their critical national security missions. Both KCNSC and Whiteman AFB are Large Power Service customers.

3. The FEA's interest in the rate case is different from that of the general public. As explained in the preceding paragraph, the FEA is a large consumer of electricity with a unique public mission to serve the interests of national security and the taxpayer. No other party can adequately represent the interests of the FEA because no other party shares the characteristics and

electricity usage of the FEA's installations in the Evergy service territory. The interest of the FEA could be adversely affected by the outcome of the rate case and the FEA should be given the opportunity to advocate its position in this rate case. Granting the FEA's proposed intervention would serve the public interest by assisting the creation of a full record for the Commission's decision in the Rate Case. The FEA is still analyzing Evergy's Application and at this time in unsure of the positions it will take. Any position that the FEA takes will be in compliance with the Commission's procedural schedule.

Service Information

4. Pleadings, notices and other correspondences in this case should be directed to the following persons on behalf of the FEA:

Jelani Freeman
U.S. Department of Energy
