

Data Information Request
From Union Electric Company d/b/a AmerenUE
MPSC Case No. ER-2010-0036

Requested From: Missouri Industrial Energy Consumers

Requested By: James B. Lowery

Date of Request: January 28, 2010

Information Requested:

Please list by Case Name, Case No., and Jurisdiction each public utility general rate increase proceeding (including an over-earnings complaint case) or public utility depreciation rate proceeding where Mr. Selecky has supported use of the life span approach in setting depreciation rates for the subject utility's steam production plants. Please list by Case Name, Case No., and Jurisdiction each public utility general rate increase proceeding (including an over-earnings complaint case) or public utility depreciation rate proceeding where Mr. Selecky has supported use of the whole life method that is developed from interim retirement activity in setting depreciation rates for the subject utility's steam production plants.

Response:

Attachment UE-MIEC-029 lists the cases in the last 10 years where Mr. Selecky has supported the life span approach in setting depreciation rates for steam production plants. Mr. Selecky is not aware of any case, in the last 10 years, where he has supported the use of the whole life method using interim retirement activity in setting depreciation rates for steam production plants.

Response Provided By: James T. Selecky

Date: February 16, 2010
