AMENDMENT TO APPLICATION

On September 1, 1999, Worldwide Fiber Networks, Inc. ("Applicant"), a Nevada corporation, filed a verified application requesting that the Missouri Public Service Commission ("Commission") issue an order that:

- (a) granted Applicant a Certificate of Service Authority to provide facilities-based interexchange telecommunications services pursuant to Chapter 392 of the Missouri Revised Statutes;
- (b) granted competitive status to Applicant; and
- (c) waived certain Commission rules and statutory provisions pursuant to Section 392.420, RSMO Supp. 1998.

1. After discussion with the Commission Staff, Applicant wishes to amend its Application to also request a certificate of authority to provide local exchange telecommunications service in the State of Missouri. Applicant understands that if it is granted local exchange authority, such authority must be limited to the provisioning of dedicated, non-switched local exchange private line services.

2. Applicant incorporates by reference its previous Application and appendices.

WHEREFORE, Applicant respectfully requests that the Commission grant it a certificate of service authority to provide intrastate interexchange and local exchange telecommunications services to the public in the State of Missouri. If granted local exchange authority, such authority will be limited to the provisioning of dedicated, non-switched local exchange private line services. Applicant also requests classification as a competitive telecommunications company. In addition, Applicant requests a waiver of the above-referenced rules and statutory provisions.

Respectfully submitted,
