Central Office Code (NXX) Assignment Request – Part 1 Footnotes

1. Identify type and reason for change(s) in Section 1.4(e).
2. A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.
3. The NXX field is required for any code request in which there is a change or the NXX is being returned.
4. Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (973-884-8355) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the Traffic Routing Administration (TRA) on 732-699-6700.
5. This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character COMMON LANGUAGE Location Identification (CLLI) of the applicant's switch or POI.
6. Rate Center name must be a tariffed Rate Center associated with toll billing.
7. Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.
8. This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the COMMON LANGUAGE Location Identification Code (CLLI) of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.
9. Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.
10. Requests for code assignment should not be made more than six months prior to the requested effective date.
11. The Pool Administrator will indicate if the NXX being requested will be used for thousands-block number pooling.
12. Applicant is not required to submit Part 2 of the code request form if it is doing its own RDBS and BRIDS entries, or if the applicant has arranged for a third party to input the Part 2 forms data on its behalf.
13. WARNING! It is the code applicant's responsibility to arrange input of Part 2 information into RDBS and BRIDS. The 45-calendar day nationwide minimum interval cutover for RDBS and BRIDS will not begin until input into RDBS and BRIDS has been completed.
14. An incomplete form may result in delays in processing this request.
15. If application is submitted electronically, applicant must also fax form with signature to establish a "signature on file." All subsequent applications then assume "signature on file" (i.e., no fax required – unless contact name for request is different than "signature on file.")
