- b. A detailed explanation regarding why the specific number ranges are needed.

We will expanding patient care at this facility to include 80 additional inpatient rooms and supporting departments in second quarter of 2017. At that time we will need to add a range of additional direct inward dial numbers. Handling of our incoming calls would be streamlined for callers if we were able to obtain a block of 500 consecutive direct inward dial numbers in the 636 area code.

- c. The total number of telephone numbers currently in service and the date the new numbers will be activated if the numbering request is approved.

Currently we have 1,500 DID telephone numbers at our SSM Health St. Joseph Hospital – Lake St. Louis location delivered via three CenturyLink PRI trunks.

List of all number blocks currently assigned to customer:

d. The total number of telephone numbers which will be activated [when].

All will need to be activated at the end of March, 2017 and delivered to our telephone system via the current CenturyLink PRI trunks.

e. If the customer is moving, what will be done with the current numbers after appropriate aging (i.e. will the old numbers be returned to the provider)?

We are not moving. No changes are to be made to current direct inward dial numbers.

f. The anticipated expenses and/or problems that the business may incur if the numbering request is denied.

Denial of the numbering request is not acceptable for our best business practices.
